Dear Leaders McConnell and Schumer, Speaker Ryan and Leader Pelosi:

On behalf of the over 60 members of the Information Technology Industry Council (ITI), I write to express our strong support of the conference report to the H.R. 1, the *Tax Cuts and Jobs Act*. *Given the importance of these provisions to the high-tech community, we will consider scoring votes in support of final passage of the tax reform legislation in our 115th Congressional Voting Guide.*

ITI has long advocated for tax reform that builds a more competitive economy and incentivizes innovation. We are pleased to see that this critical legislation includes a permanent, competitive corporate rate, moves to a territorial system and creates powerful incentives for innovation including a permanent Research and Development Credit, and a tax incentive for income made abroad on intellectual property held in the United States.

Updating the over 30-year-old U.S. tax code is an essential step towards a more rational system for the nation. Adopting a territorial tax system where profits are taxed where they occur is essential to aligning the US system with the rest of the world. Similarly lowering the corporate rate, from one the highest statutory rates in the developed world, will make the United States more competitive in the global arena. Critically for our sector, the law will help ensure the United States remains the global leader in innovative technologies by providing incentives for the development and retention of intellectual property.

On behalf of ITI's member companies, we urge members of the House and Senate to support the final conference report to the Tax Cuts and Jobs Act.

Sincerely,
